VVIP Room – Lounge & Washroom Extension

The club has recently extended the Committee Room to accommodate a VVIP lounge and washroom exclusively for our Patron HRH the Sultan of Selangor, HH Crown Prince of Selangor and other VVIP's who visit our club occasionally.

The Crown Prince recently visited our club to officiate the RMEA on Saturday, 8th September 2018. The extension was part of our club development plan. Despite the challenging task, we managed to complete the project within the 20 days deadline.

Royal Maritime Environmental Awareness (RMEA)

RMEA was organized by the Maritime Pilots Malaysia (MPM) at RSYC on 8th September 2018. The Crown Prince of Selangor, Tengku Amir Shah officiated the event with the Deputy Minister of Transport, Senior Government Officials and Corporate representatives.

This event was to enhance public awareness on the disposal of plastic waste and pollutants. The club, however had initiated and actively been promoting this campaign called the "Green Seas" since July 2018.

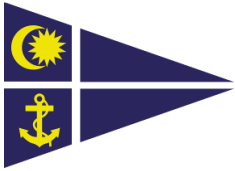

Walkway and Modification of Steps at the Clubhouse

The walkway and modification of steps at the clubhouse entrance was recently completed.

This is the new look of the clubhouse entrance with the walkway rain shelter brightly lit at night with LED lights.

In addition, the tiling steps adjacent to the walkway are now being replaced with angle bars fixed on the edge of the steps to prevent damages to the floor tiles and are painted yellow for safety precautions.

Artesian Spring Water

The building at the main entrance of the club which was rented out in June, 2018 is tastefully refurbished and reflects well on the club's main entrance. The tenant who is our member, is a distributor of Artesian Spring Water under the brand name 'O Pure'.

'O Pure' water is 100% natural artesian water from New Zealand, direct from the aquifer, untouched by mankind and packed at the source.

Additional Visitors Car Park

The Committee has always been looking into the parking space issues. Our club now has an additional Visitor's car park on the area that was previously rented by TM Hitech Marine, next to the Sailing academy building.

Save Our River and Sea

Each year, at least 8 MILLION TONNES of plastic leak into the oceans, according to the UN's Clean Seas campaign. That's like emptying a garbage truck into the ocean every minute.

The Royal Selangor Yacht Club is determined to play its part in reducing marine plastic waste, by introducing Recycling Bins, a No Plastic Straws policy and also promoting the Clean Seas campaign.

RSYC has started the campaign in July 2018. We would like to seek the co-operation of all members and guests to fully support the club's environment awareness program.
